Parents are welcome to join for \$15/person (limit 1 per family, limited space)

**Join us on Sunday, October 22, 2023  
@ 10:30 AM - 11:30 AM**

**Environmental Nature Center  
1601 E 16th St, Newport Beach, CA 92663**

California is a biodiverse hot spot with many native plants and animals that can only be found right here in our state. Come explore a few of the native animals that call California home by meeting ENC's animal ambassadors. Students will learn about and touch the different animals that live here and what adaptations they have that help them survive. The program is a 1-hour naturalist-guided hike through our trails.
