## WINTER

### INSECTS

Tuesday 1/9-3/12

Learn about the amazing bugs around us such as beetles, butterflies, crickets, ladybugs and more. Up close with live/preserved bugs and perform cool biology activities.

## BIOENGINEERING

Wednesday 1/10-3/13

Learn how to design and create something to improve life itself, such as prosthetics, medical equipment, genetic modification, bioenergy, and more! Be exposed to engineering concepts and perform cool biology activities.

## SPRING

### OCEAN

Tuesday 3/19-5/28 | No class 4/2

Plankton, starfish, and many more! Your children can learn about amazing marine animals. Work up-close in dissecting live/preserved/fresh organisms and other biology experiments.

## CAMPING SCIENCE

Wednesday 3/20-5/29 | No class 4/3

Help your child recognize and appreciate the living world just outside their window. We will discuss camping-related topics, such as wildlife, survival, sun power, rocks and more. Up close with live/preserved organisms and engage in cool camping-related activities.
