\$293 per student | 9 Classes

MPR

Human Body: We Are Super!

Come and join this fun and hands-on biology workshop for kids! Learn about how amazing your body is and how its systems work, from your brain to your skin. Your child will be up close with fresh/preserved organs, perform many dissections, and engage in cool biology experiments using lab equipment/tools.

All teachers have a degree(s) in Biology or other related sciences or experiences.

Bionerds was founded in Orange County, CA, on September 2015 with a mission to nurture curiosity, share lifetime passion and give opportunities for younger generations to learn about biology through self-discovery. We believe each individual is a Bionerd. With the right environment provided at a young age, kids can learn and appreciate how amazing living things are. Living things are too amazing not to be wondered about!
